## Find your own DECORATING INSPIRATION

We use expert interior-design techniques to create Ideal Home's decorating photo shoots. Each look starts with a moodboard, just like the ones pictured here. Use one of these as your starting point for a fabulous new scheme, or see more inspiring moodboards at [housetohome.co.uk/moodboards](http://housetohome.co.uk/moodboards)

DESIGN YOUR OWN MOODBOARD

**STEP 1 Choose your base colour** Whether it's flooring or a wall, this will be the largest area of colour in your room, so place a large sample of it onto your board, including carpet samples, to help you think about texture, too.

**STEP 2 Add an accent tone** A dramatic contrast or an accent just a few tones away from your base colour? Use your moodboard to play with options - and layer it up with a selection of textiles and props.

**STEP 3 Find the right accessories** These will really set the tone - go for ones that share an accent colour and stick to a single theme. Don't mix styles, or your scheme will look messy rather than elegant.

*Bold, yet soothing, teal blues are perfect for brightening up a room and making you feel relaxed. Combining different hues adds depth to your space, so don't be afraid to team a bold teal on the walls with a mix of pale and deep teals for your accessories. Finally, balance out the coolness of these blues with a few sunshine-yellow accents and warming natural textures like sisal and oak*
