## UPHOLSTERY TEXTILES

Kirkby Design presents four collections that aim to take upholstery to the next level. Comprising of the new Teddy plus re-colours of Fibre, Ice and Cloud, these qualities highlight the importance of texture.

The high-impact textures of these collections showcase Kirkby's commitment to cutting-edge design, commanding attention and capturing imaginations.

## TEDDY FR

### Wool Bouclé

A characterful, wool bouclé that is FR inherent, Teddy FR is perfect for both contract and residential use. Created through a steaming process on the loom which opens the fibres to create a fuller, softer bouclé.

Destined to make a statement, the supple hand and extravagant texture of the fabric lends itself effortlessly to upholstery. Enhancing the nature of the wool, the colour palette includes warm, natural tones and rich shades, including trend-driven colours of Amber, Chai and Fern.

## FIBRE

### Textured Weave

Scattered flecks of white enliven the surface of Fibre, a textured semi-plain weave. Multi-tonal yarns woven together with a seemingly random distribution create a characterful weave that is equally as desirable as it is practical. With a concise, considered palette, shades of Licorice, Matcha and Autumn make a punchy impact.

## ICE

### Cotton Velvet

Delivering the luxurious quality of a cotton velvet with a gentle, lustrous touch, Ice is a true example of a premium textile. Offering a practical, stain repellent finish, this fabric is refined, yet seductively dramatic when used for upholstery or drapery. An extensive range of neutrals are interrupted by contemporary pops, including shades of Tangerine, Chartreuse and Spring Green.

## CLOUD FR

### 3D Quilted Velvet

A Kirkby Design favourite: this 3D velvet with a graphic, hexagonal structure is softened by a premium triple quilting, providing a plush finish. Quirky and playful with a stain repellent finish, Cloud is designed with upholstery in mind, but is also ideal for statement furniture pieces, headboards, and wall panelling.
