ZAFARO

Decorative Prints, Weaves and Velvets

PRESS RELEASE

ZAFARO

Decorative Prints, Weaves and Velvets

A colourful anthology of printed and woven fabrics that vibrates with an expressive energy. The Zafaro collection is an invigorating, vibrant assortment of sumptuous, elegant velvets, intricate warp-printed jacquard weaves, finely printed linens and silks encased in a kaleidoscope of colour and pattern.

At the heart of the collection is artistry in both design and technique, uniting intricate weaving and precise, cutting-edge printing with Black Edition's exquisite designs.

Setting out to create a collection that explores creative expression, the designers immersed themselves in experimental mark making, playing with different textures, materials and colours, filling the studio with an array of resources from textural paints and pastels, to charcoals, watercolours and inks. The Zafaro collections emerged out of this intense period of creativity, with each design radiating with energy and movement.

'An artistic wonder, Zafaro is an articulation of contemporary design; a serene yet striking collection of prints, weaves and velvets. Infused with oriental richness and vivid charm, considered techniques and a playful use of shapes and colour form beautiful, thought-provoking designs with an animated elegance.'

Emily Mould,
Black Edition Design Director

Susulu

Printed Jacquard Weave

An innovative combination of techniques brings fanciful character to this colourful, layered diamond design. The fabric is jacquard woven, leaving long floats of yarn which are then cut once the print has been applied, creating a three-dimensional feathered effect

Matiko

Printed Jacquard Velvet

With a charming sense of opulence, colourful printed shapes form a contemporary geometric velvet that's rich in texture. Uniquely woven with a shadow weave effect, the pile is woven in two different directions to create the design, causing each area of the pile to reflect the light differently.

Kivuli

Jacquard Weave

Elegant in its simplicity, a linear geometric design is jacquard woven with a pima cotton to resemble a delicate embroidery. The raised yarn is created using a shrink yarn technique. Flat when woven but when subjected to heat the yarns contract, resulting in an inviting raised effect.
