## VILLA NOVA'S LIBRARY OF PLAINS

---

This season, Villa Nova has revisited its extensive library of plains, re-introducing some of their much-loved and most practical and affordable plain fabrics.

The backbone of any interior scheme is choosing the right plain fabric. The great unifier, a plain weave can effortlessly unite a space through colour and texture, transforming a mismatched scheme into a cohesive and balanced space, humming with harmony.

These essential plains from Villa Nova include their best-selling plain cottons and linens; Geneva, Seville and Bilbao; alongside Alberta, a soft textured chenille; Mira, a stunning Trevira CS velvet and the ever-popular Valletta wide-width satin. These classic Villa Nova collections are relaunched this Autumn Winter in their most popular shades, with additional, fresh new tones that perfectly capture Villa Nova's ever evolving colour palette.

---

"Often overlooked a plain can really change the way a space feels. These essential collections are a one stop resource of go to plains that will work in any decorating scheme."

Hayley McAfee, Villa Nova Design Director

## WASHABLE LINEN UNION

---

A cotton linen blend combines with the natural benefits of each fibre. In this perfect partnership we see the softness of cotton counter the dryness of linen for a desirable touch. Add in the washable element and this makes a cotton linen blend stand out from the crowd.
