Contract Collection

Villa Nova launches five new contemporary collections designed for the contract sector. Inspired by time-worn surfaces and geometric structures found in architecture the collections conjure a modern and urban sensibility. This launch features a range of striking drapery designs, supple plains and versatile sheers complemented by a textural collection of vinyl wallcoverings all presented in a range of neutral shades with metallic detailing and bursts of rich and intense colours.

This launch of Trevira CS fabrics and vinyl wallcoverings has been designed with the contract sector in mind; however they are also highly suitable for domestic interiors.

Villa Nova will be exhibiting at The Sleep Event in London, 22nd – 23rd November and internationally in January 2018 and will be available globally through an extensive network of selected interior designers and retail outlets.

RENZO WALLCOVERINGS

Renzo wallcoverings is a collection of statement vinyl wallcoverings that combine innovative embossed textures and patterns inspired by architectural structures and geometry. Colour combinations with flashes of metallic take inspiration from urban finishes such as distressed concrete and polished plaster to inject life and modernity to this collection and create a dramatic backdrop.
