PRESS RELEASE

ESTELLA

Wide-width FR Blackouts

Modern lifestyles insist on interior fabrics that help create a space that is both relaxing and practical.

Creating a restful environment, Villa Nova presents Estella, a collection of stylish plains and semi-plains that are 100% blackout and fire retardant. Ideal for bedrooms and bright interiors, Estella is surprisingly fluid for drapery and features a natural look and a useable colour palette that enhances this incredibly versatile collection.

"Expanding on our extensive library of functional plain fabrics, it is exciting to be able to bring a range that combines a beautifully natural look with the practically expected of blackout and fire-retardant fabrics."
