enzo

wide-width — reversible satin

A new plain enters the library: Enzo, a wide-width satin that elevates curtaining to new heights.

There's more than meets the eye under the glossy surface of Enzo, this alluring wide-width satin is woven with a touch of metal which gives the fabric its unique relaxed, and somewhat crumpled appearance.

Reversible, Enzo has the option of either a matte or lustrous finish depending on what mood you're in. Like liquid gold, the satin face gives the rich palette of jewel-like tones and warm neutrals an alluring aesthetic, whilst for a more modest finish, the matte face provides rich sophistication.

about zinc textile

Originality and cutting-edge design are at the forefront of the Zinc Textile brand. Starting the journey in 2010, Head of Brand Justin Marrlaunched a brand that found inspiration in the heady heights of the 1970s and has remained true to the original aesthetic, while continually pushing the boundaries of design. With new and innovative collections launching each year, Zinc continuously offers versatile fabric and wallcovering ranges with unexpected elements.

Zinc Textile is a division of The Romo Group, a family run business in its fifth generation. The range is available worldwide through an extensive network of selected interior designers and retail outlets.

Please contact us for price information, samples and images, we are also happy to arrange interviews and offer expert commentary from our designers.
